MEMORANDUM FOR: Director of Finance

SUBJECT : Realignment of Compensation and
Tax Division Staffing Complement

1. Paragraph four of this memorandum contains a recommendation for your approval.

2. The implementation of the revised automated payroll system on 29 April 1973 and the subsequent expansion of that system has resulted in a significant organizational realignment in Compensation and Tax Division. The Staffing Complement must also be revised to reflect this realignment. In order to establish a realistic base point for the Office of Personnel Position Management and Compensation Division (PMCD) position review scheduled for January 1974, the following staffing revisions are required to reflect the status quo:

a. Reduce the Special Payroll Operations Branch from [REDACTED] positions.

STATINTL

b. Increase the Automated Payroll Operations Branch from [REDACTED] positions.

STATINTL

Attachment A outlines the individual position switches, upgradings, and downgradings involved. These changes include eliminating a GS-11 and adding a GS-12, eliminating three GS-9's and adding two GS-11's, eliminating three GS-7's and adding two GS-7's, and adding one GS-6 and one GS-5. Both the overall position count and grade point count are unchanged by this realignment.

3. This realignment does not alleviate the overall upgrading of the pay clerk jobs to pay technicians needed to cope with the current automated system. [REDACTED] and I discussed this requirement with Mr. Brownman on 16 November 1973 when we briefed him on the current payroll problems. I propose that we defer that request for correction for the PMCD "desk audit". Attachment B outlines the requested upgrades deferred until completion of that review.

4. The realignment in the Staffing Complement discussed in paragraph two above and outlined in Attachment A is recommended for your approval and submission to Office of Personnel.
